C

An aerial photograph of a prominent limestone cliff face. The cliff is light-colored with vertical erosion patterns. Above the cliff, a dense forest of green trees covers the plateau. Below the cliff, a thick forest of green trees covers the slope. The text "A sektor" is overlaid in red on the cliff face.

A sektor

B

An aerial photograph of a rugged, light-colored rock cliff face. The cliff is characterized by vertical erosion patterns and is partially covered with sparse green vegetation. The foreground is a dense forest of green trees, with some orange-brown foliage visible on the left side. The background shows a continuation of the rocky terrain under a clear sky. A red text label 'C sektor' is positioned in the center of the cliff face.
